INTRODUCTION

I am a university student with a profound passion for programming. I self-taught full-stack development from high school, gaining substantial experience in designing and implementing efficient, scalable, and maintainable software systems. I actively contribute to the open-source community, enhancing my skills and supporting collaborative software development. I have a keen interest in researching and exploring cutting-edge technologies. I am eager to contribute my technical skills to a dynamic team, where I can further develop my programming expertise and contribute to impactful projects.
